Compressed Asbestos Fibre Jointing Sheets

Description : SAMSONITE Compressed Fibre jointing is a consistently uniform and resilient product. A price worthy quality of dependable performance, plus adaptability to many sealing requirements make this JOINTING the ECONOMICAL sheet packing of plant engineers and Maintenance men.

SAMSONITE ECONO Jointings are developed for general purpose applications and this quality is applicable for use against low pressure steam, water, gases and alkalies.

SAMSONITE ECONO METALLIC JOINTINGS SHEETS with wire gauge insertion is also supplied with antistick graphite coating in 1525mm width x 1650mm to 5000 mm length

SAMSONITE ECONO L.P. STEAM

Identity color	Red or Graphited
Nominal Sheet Thickness	0.4, 0.8, 1.5, 3.0, 5.0 mm
Sheet Size Approx.	Width Length
Tolerance	1525mm x 1650mm to 5000mm

TECHNICAL DATA

Recommend Maximum Temperature	350 C
Recommend Maximum Pressure	20 kg./sq cm.
Specification Compliance	IS 2712-1979 Grade W/3 IS 2712-1971 Grade C
